Book Summary

One of the most critical issues confronting the twenty first century church is leadership. The need is great and if the church is to do and be all that God intends, it will only be accomplished through effective biblical leadership. But what is spiritual leadership and how do we recognize it?

In Pursuit of Leadership addresses these and other questions in an examination of the leadership qualities of Moses. Drawing from the life of one of the world's greatest leaders, Dr. Greg Morris identifies specific characteristics of authentic spiritual leadership. He peels back the mystery of leadership and offers fresh biblical insights derived from a solid biblical perspective. Dr. Morris offers clear and practical guidance on how leaders can make a positive impact on the people and organizations they lead. If you are in leadership or aspire to leadership, this book will provide the tools to lead God's way.
